SOLE - Health care online - roadmap

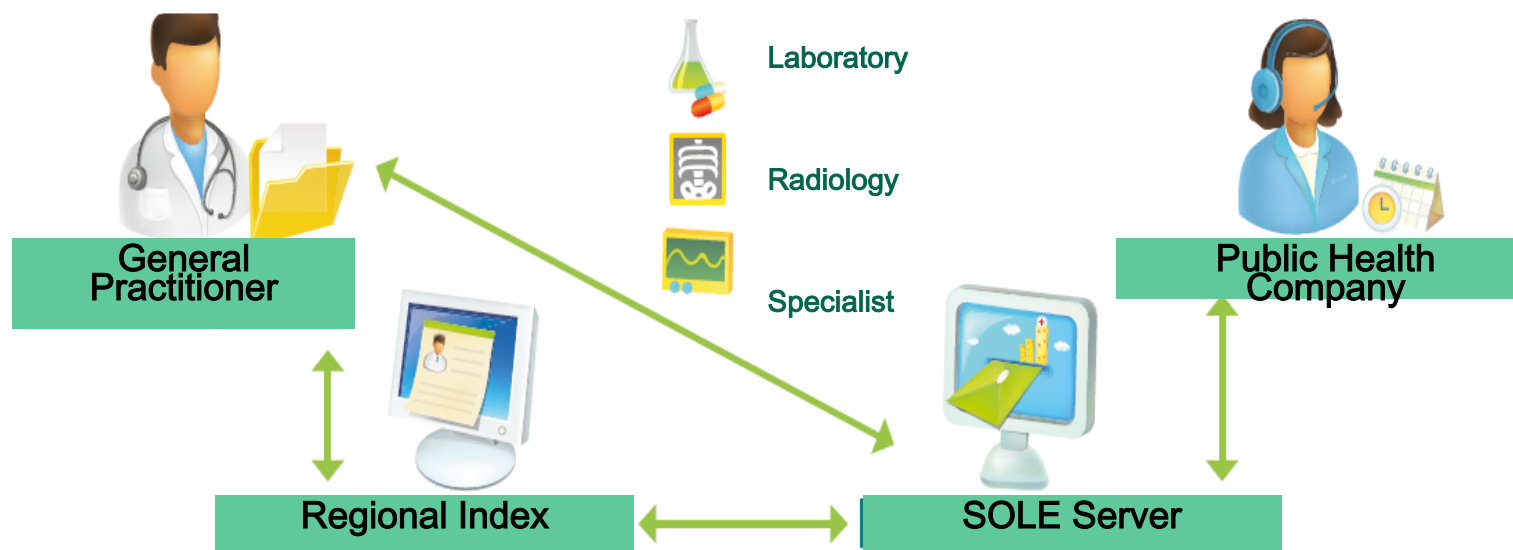

SOLE is an integrated network of Local Health Trusts, Hospitals, General Practitioners and Paediatricians and provide, through the Electronic Health Record (EHR), the clinical history of every citizen of the region.

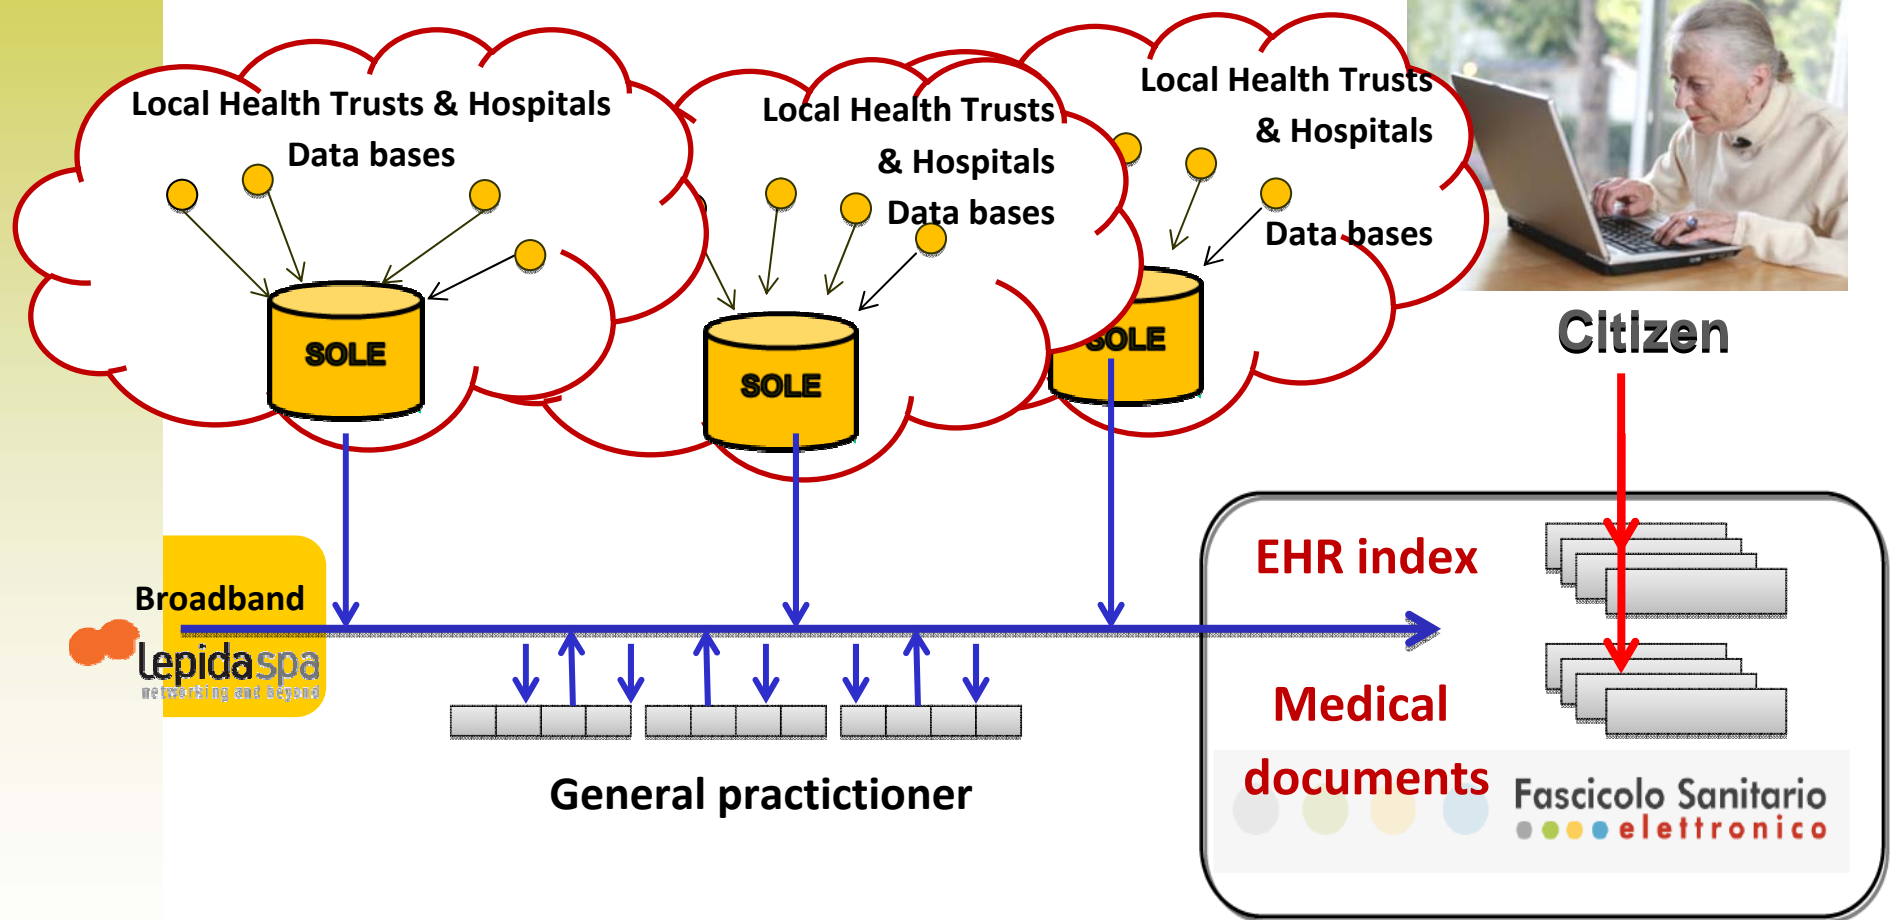

SOLE – Health care online - contents

Project's SOLE solutions are based on innovative e-government standards and health care services in order to:

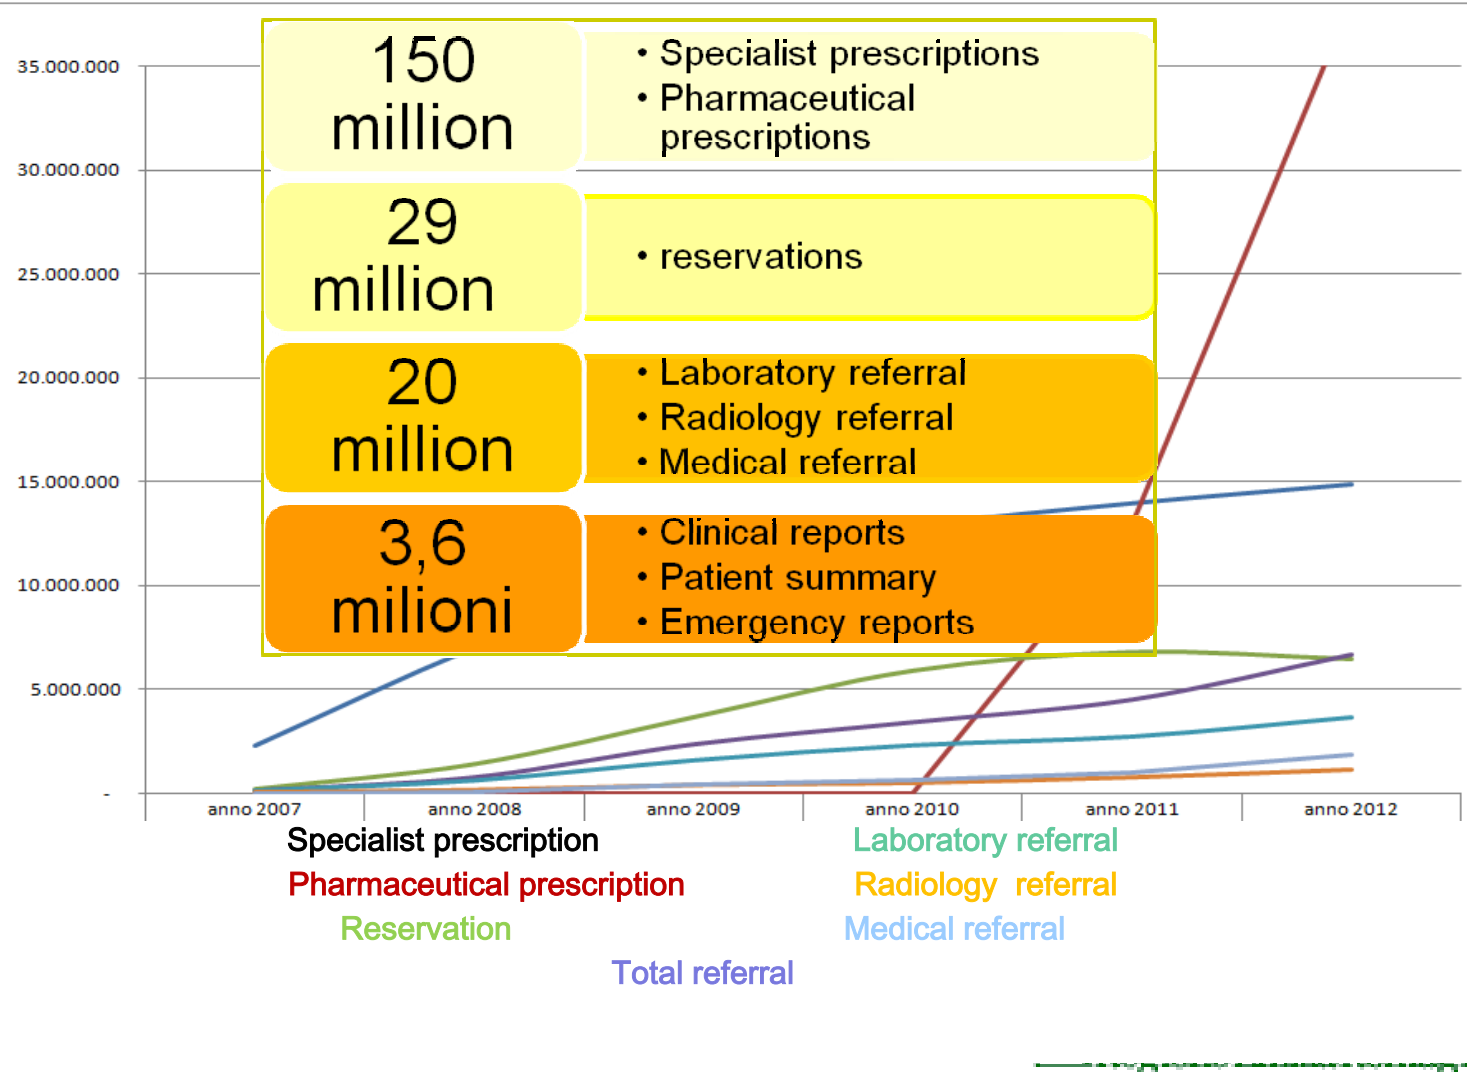

- Manage prescription-referral life cycles
- Provide continuing-assistance management process
- Keep GP/Company Administrative Management Fluxes
- Supply Integrated Home Care Assistance in Management Processes

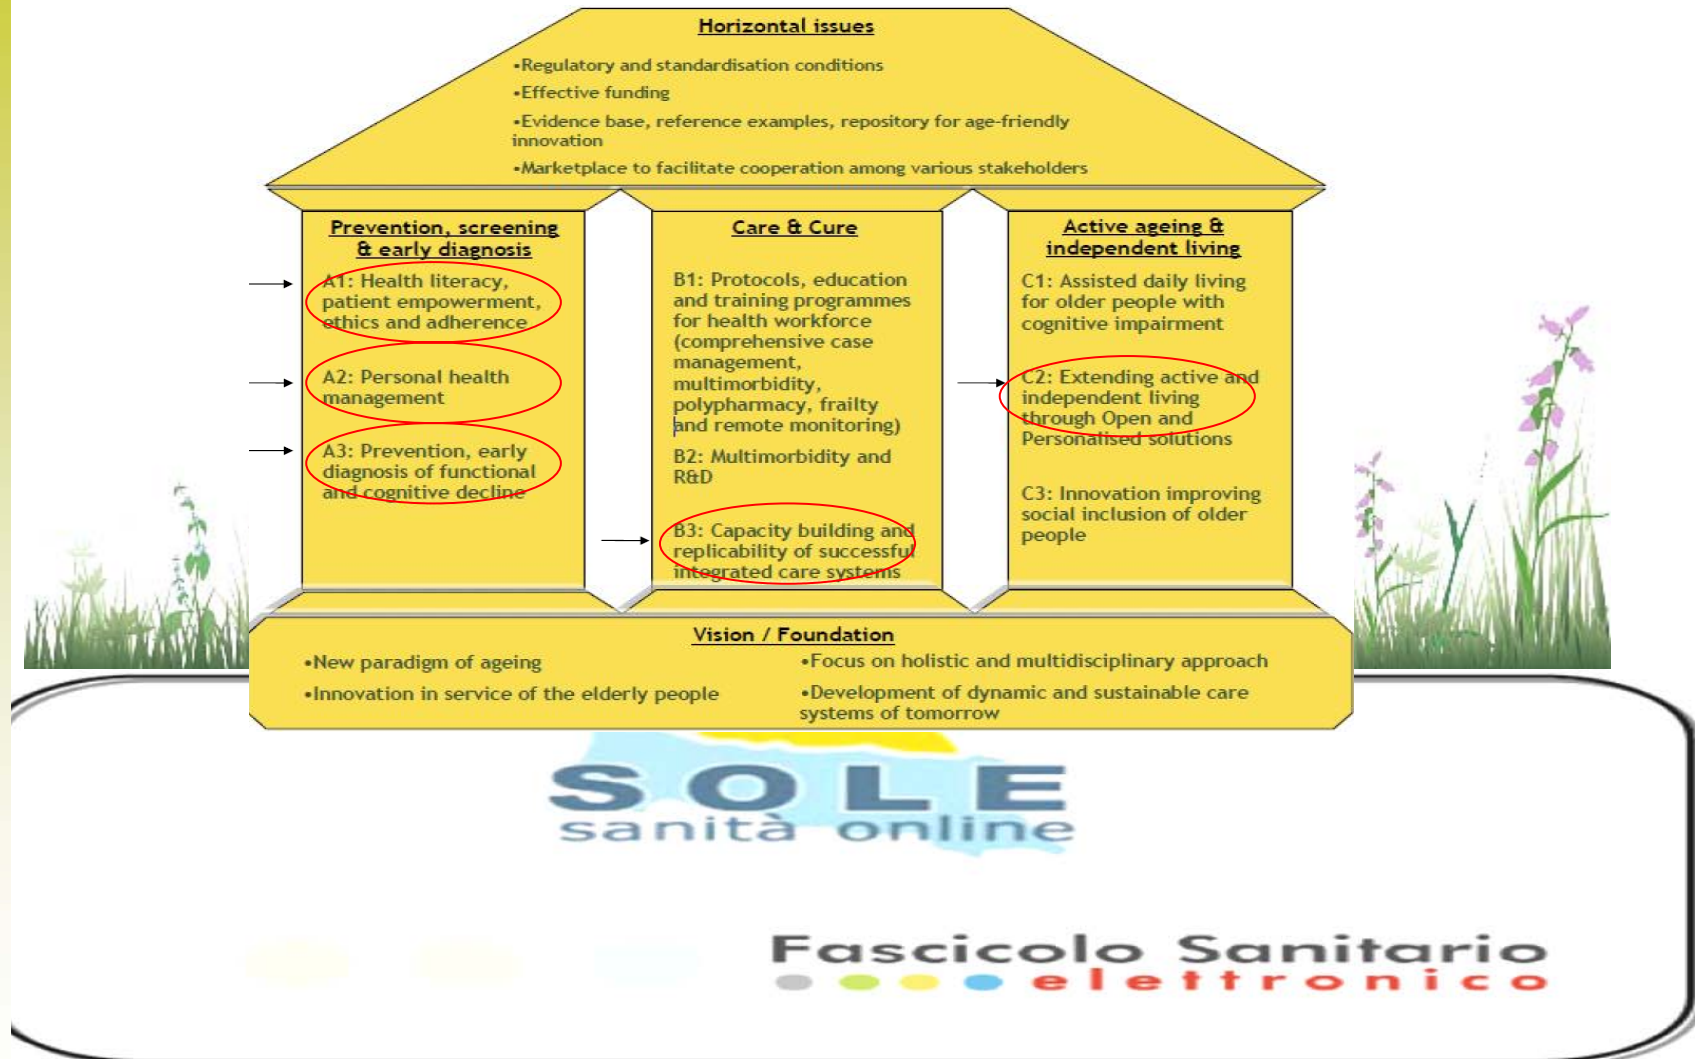

SOLE versus Electronic Health Record

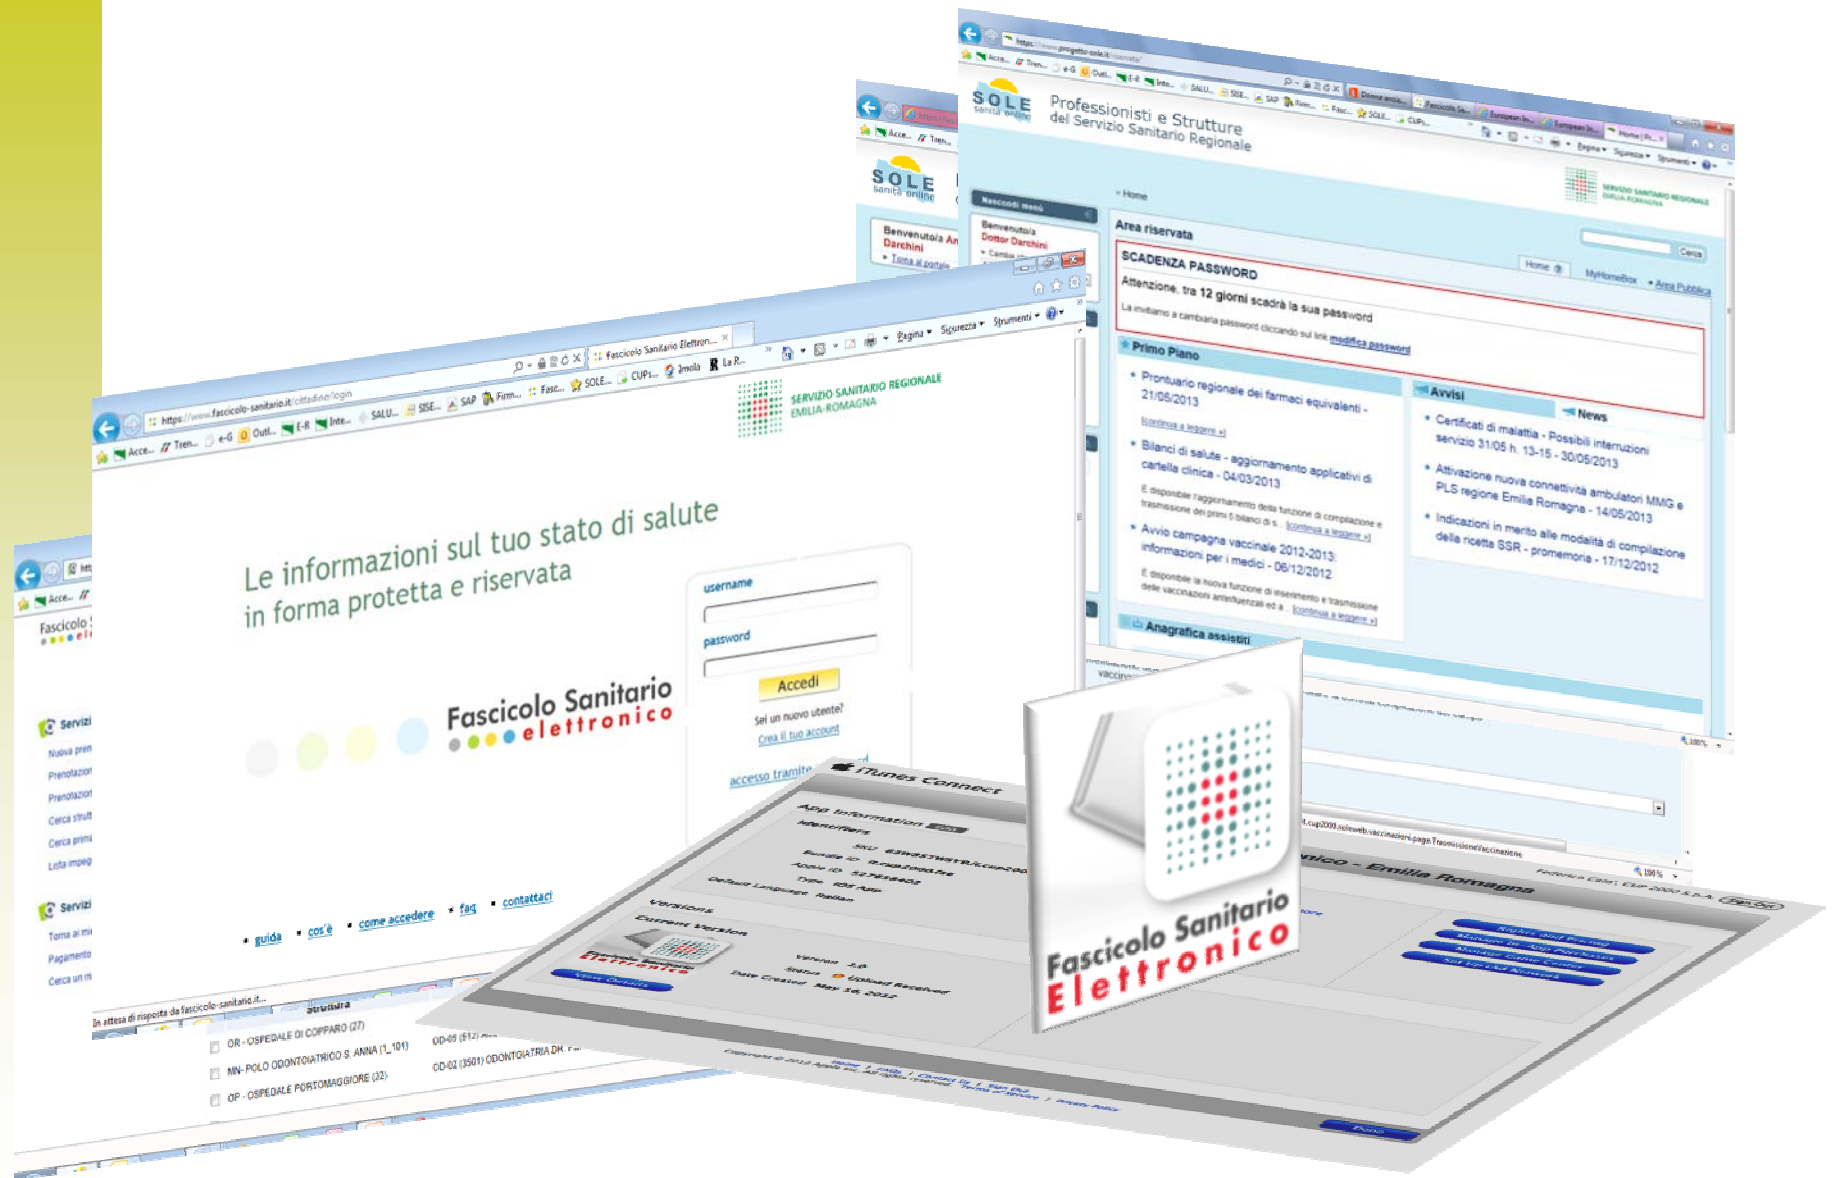

Electronic Health Record - measures

EHR & SOLE & ... EIP-AHA Emilia-Romagna

EHR & SOLE functional support to commitment
