Actions co-financed with MS authorities – Joint Actions

- JA have a clear EU added value and are co-financed either by competent authorities that are responsible for health in the MS or in the third countries participating in the Programme, or by public sector bodies and non-governmental bodies mandated by those competent authorities.
- *Proposals should provide a genuine European dimension. Depending on the scope of the action, previous JA involved on average 25 partners.*
- A multibeneficiary grant agreement.

And, what 's Ministry job ?

- National Plan on chronicity

(Steering Committee in place)

- National prevention plan

(Health promotion, healthy life styles, healthy ageing)

- National public health fund (CCM)

- Partnerships in EU projects

(e.g .CHRODIS/CHRODIS+)

CCM: focus on frailty

“Pilot project of healthcare provision in elderly people with multi-morbidity through a telematic cloud based platform prototype”

“Support of Joint Action “ADVANTAGE» through promotion of physical activity in people older than 64”

Yes, but what 's EUHP future ?

According to this logic, there are five basic options for the future of EU finances.

- ▶ **Carrying on:** the EU-27 continue to deliver their positive reform agenda.
- ▶ **Doing less together:** the EU-27 do less together in all policy areas.
- ▶ **Some do more:** the EU-27 allow groups of Member States to do more in specific areas.
- ▶ **Radical redesign:** the EU-27 do more in some areas, while doing less elsewhere.
- ▶ **Doing much more together:** the EU-27 decide to do more together across all policy areas.

Doing much more together

	1 Carrying on	2 Doing less together	3 Some do more	4 Radical redesign	5 Doing much more together
POLICY PRIORITIES	Taking forward current reform agenda	Mainly financing of functions needed for the single market	As in Scenario 1; additional budgets are made available by some Member States for the areas where they decide to do more	Financing of priorities with very high EU value added	Doing much more across policy areas
VOLUME	Broadly stable	Significantly lower	Somewhat higher	Lower	Significantly higher
COMPETITIVENESS	Slightly higher share	Same as in scenario 1 but significantly lower amount	Same as in scenario 1	Higher share	Higher share
ECONOMIC, SOCIAL AND TERRITORIAL COHESION	Lower share	Lower amount	Same as in scenario 1	Lower share	Higher amount

Scenario 2 Doing less together

General trend and volume

- ▶ Significantly reduced
- ▶ Focus on internal market functioning
- ▶ Amounts for cohesion and agriculture significantly reduced
- ▶ Much higher use of financial instruments and guarantees

Expenditure

- ▶ Common agricultural policy
 - Support only for farmers under special constraints (e.g. small farms, mountainous areas and sparsely populated regions)
 - Risk management tools for all farms
- ▶ Economic, social and territorial cohesion
 - Support only to cohesion countries and cross-border cooperation
 - Focus exclusively on social inclusion, employment, skills, innovation, climate change, energy and environmental transition
- ▶ Single market programmes maintained (trans-European networks, customs, consumer protection, agencies)
- ▶ No financing for new priorities (security, border control, migration, defence)
- ▶ Discontinue other programmes (Erasmus+, research and innovation, aid to the most deprived health, culture, citizenship, etc.)
